Flexible Spending Accounts

What to know and how to use them

Flexible Spending Accounts (FSAs) are reimbursement accounts that allow you to pay for certain eligible expenses with tax-free dollars. Through pre-tax salary reduction and reimbursement, you convert taxable income into non-taxable benefits. The result is reduced tax withholdings and more take-home pay — and who doesn't want that, right? When you participate in an FSA, you give yourself access to tax savings of approximately 30 percent for all dollars run through the plan.

There are two types of FSAs:

- 1. Medical/Dental/Vision FSA** can be used to pay for eligible unreimbursed medical expenses (not covered or paid by any insurance) incurred by you, your spouse, and your dependents. A general listing of reimbursable and non-reimbursable expenses is included in this guide. For more information visit ProBenefits.com.
- 2. Dependent Care FSA** can be used to pay for eligible dependent care expenses (daycare, childcare) so you and your spouse can work, look for work, or attend school full-time. Covered expenses must be for:
 - Dependent children age 12 and under; or
 - A person of any age whom you claim as a dependent on your taxes and who is mentally or physically incapable of caring for himself or herself.

What's eligible? Eligible expenses include childcare (nursery, preschool or private sitter), before and after-school care and day camps.

What's not? Ineligible expenses include kindergarten tuition, overnight camps and expenses paid to a tax-dependent.

Important Notes about FSAs

There are varying FSA plan designs that treat unused funds at the end of the plan year differently. For more information about how your plan treats unused funds, please refer to your Summary Plan Description (SPD).

Your FSA annual election cannot change during the plan year except in the event of a recognized Status Change or Qualifying Event.

Per IRS regulations, dependent care elections cannot exceed \$5,000 per family per tax year.

Reimbursement is based on the date of service, not the date of payment. In order for you to be reimbursed from your FSA funds, the date the expense is incurred must be within the current plan year and while you are an active participant in the plan.

Prepayments, such as deposits for prenatal care/delivery, surgery, dental work or dependent care summer programs are not eligible for reimbursement until the service has actually been rendered.

Always keep your receipts! Documentation is required for all FSA expenses, and must include date of service, type of service, and amount you owe. Detailed provider statements, itemized cash register receipts, and Explanation of Benefits (EOB) statements from your insurance company are all generally acceptable. Credit card slips, bank statements, and cancelled checks do not provide the required information.

Generally, you have 90 days after the end of your plan year or 90 days after your last day of plan participation to file reimbursement claims for eligible expenses; your plan details may vary — see your SPD.

Your Dependent Care and Medical/Dental/Vision FSAs are two separate plans, and funds cannot be transferred between them.

Please visit ProBenefits.com for more detailed information on the IRS rules governing FSA plans.

About the debit card

The ProBenefits Debit Card is a Visa limited merchant category card. It is designed to work at merchants with a healthcare merchant category code, such as a doctor's office or hospital. At these locations, card transactions that match your employer-sponsored group health plan copays will be automatically approved. You will need to submit documentation to ProBenefits for other amounts.

The debit card will also work at retail merchants that have an Inventory Information Approval System (IIAS) in place. This means you can only purchase eligible items with your card at these locations, and you will not need to submit paperwork for these charges. However, per IRS requirements, you should always keep your receipts on file (and be sure your receipts show date of service, type of service, and amount you owe).

If you have a Dependent Care FSA, your card will work at some dependent care locations that accept debit cards. You can spend up to the amount of contributions you have available at the time of the swipe. Use our app for easy balance checks. You will need to submit documentation for these expenses.

For a complete listing of eligible Merchant Category Codes and a listing of IIAS Retail Merchants where the debit card is accepted, please visit our website at ProBenefits.com.

Please note: Your plan may not offer the debit card or your plan details may differ slightly from those listed. Contact your employer or ProBenefits for more information.

Top 5 Benefits of the Debit Card

- 1. Cashless FSA Transactions:** The debit card provides instant access to FSA funds, reducing out-of-pocket expenditures.
- 2. Less Paperwork to Submit:** Charges are automatically approved at many locations where the card is accepted, so in many cases you will only need to save your receipts instead of submitting them to ProBenefits.
- 3. Online and Mobile Account Access:** See personal account information including your available balance and transaction history.
- 4. Free Cards:** You will automatically receive two free cards when enrolled in an eligible plan.
- 5. Flexibility:** You can still file reimbursement claims if you forget your card or choose not to use it.
